Our resident animals need your help.

These “Ambassadors for Nature” help educate the public about the importance of local wildlife and ecosystems.

None of the nearly 30 animals who live at the Nature Center can be released back into the wild. For some this is due to injury, for others it is the result of “imprinting” (where an animal learns to depend on humans for survival). So they’re each with us for life—and we’re lucky to have them!

It costs nearly \$40,000 annually to house, feed and care for these special animals.

Our Animal Adoption Program helps to offset this cost.

Why Adopt?

How would you like to pay for a year's worth of food for Echo, our Great-horned Owl? Or provide for quarterly vet check-ups for Orion, Wek'-Wek and our other raptors? Or supply our reptiles and amphibians with comfortable bedding?

An adoption is a sponsorship donation that is used to help provide food and care for the all of the animal ambassadors at the Effie Yeaw Nature Center. But it's also much more...

Your adoption of one of our animal ambassadors not only shows that you care about that individual animal, but that you **support our efforts to help the public understand and protect local wildlife and ecosystems.**

We hear from many visitors that our resident animals are what make the Nature Center so special. If like these folks, you feel a connection to one or more of our incredible animal ambassadors, you can embrace and strengthen that connection by adopting!

Are You Ready?

If you're ready to welcome one of our animals into your heart, complete the back side of this flap and mail it, along with your payment, to the Nature Center or bring it to the front desk. You'll receive an adoption packet in the mail within 7 business days. And we hope you'll come visit your animal often, during our normal business hours!
